GLIMPSES of the GLOBE SHOWROOM in NEW YORK

No camera can do full justice to the beauty and the spaciousness of GLOBE's New York Showroom. As a showplace of new fashions in lighting, it stands unique, reflecting in its every aspect GLOBE's leadership for over a third of a century. The several views shown here are mere suggestions of its scope of presentation. The fixtures you see in these views are from GLOBE's Continental line; they are not a part of the line shown in this catalog.

LIGHTING FOR THE RANCH HOME BY GLOBE

LIGHTING FOR THE LIVING ROOM BY GLOBE

As Shown at Fabry, New York. Lighting by Globe

GLOBE'S GLIDE-A-LITE

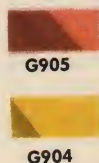

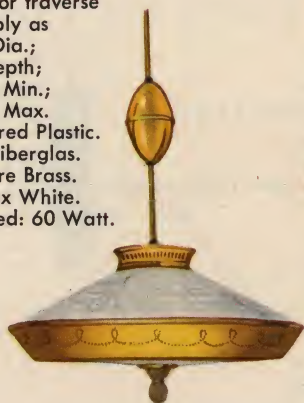

The traverse "Globetrack" makes this the most versatile fixture of all . . . versatility to conform with today's way of living. Here's flexibility never before possible. Now you can move your light source *back and forth* as well as *up and down*. It is now possible to have one light source serve both your living and dining areas. Your Glide-a-Lite glides effortlessly across your ceiling on the traverse "Globetrack." By merely moving and lowering your Glide-a-Lite, you can, in a matter of seconds, switch from full-room lighting in your living area to dramatic table-setting lighting in your dining area.

The following procedures should be used in ordering **RECESSED FIXTURES** as illustrated on Page 32

First — Select the Housing desired from those shown at the left side of page 32 (disregard glass and frame that is part of the illustration)

Second — Glass and Frame assembly should be selected from the right side of Page 32 as follows:

- Select correct pattern glass
- Select correct size of frame
- Select correct finish of frame

The number you select represents the Glass Pattern, the Frame Finish and Size of Frame.

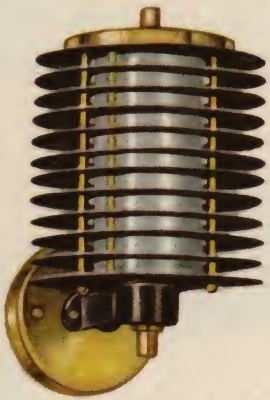

FOR EXAMPLE:

You require an oblong box with a junction assembly, the ordering number is No. **G-706**

You require a flat opal white glass with a chrome frame, the ordering number is No. **G-735**

To list these items on an order, same must read — **24** — No. **G-706**
24 — No. **G-735**

These numbers represent a complete unit. For further information, please contact our Brooklyn Office.

G484 — 1 Lt.; 6¼" Dia.; 10½" Length; Extends 8¼".

LOOK FOR THIS DISPLAY

Look for this new display in our showroom—and when you see it give it close inspection—because here is the new line that won first place in recent installation speed tests. Globe's design engineers consulted time-conscious contractors to help develop patented features which really save installation time on the job—and time saved is money saved! These fixtures incorporate "prismatic reflectors" and therefore reflect more light and furnish extra lighting performance. Globe's new recess line is also easiest to maintain—easiest to re-lamp.

THE GLOBE RECESSED DISPLAY...

shown above comes complete with wire harness and switches (separate switch for each panel) holds the following fixtures:
